

TUBE BENDING MACHINERY

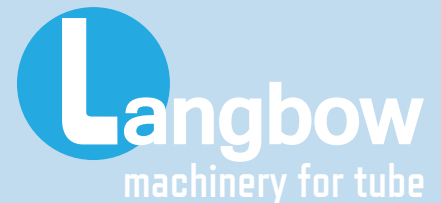

Langbow offer a wide range of new tube bending machines from Soco ranging from NC machines to multi axis CNC tube bending machines and automatic load and unload production cells. Langbow also provide Soco all electric machines and the versatile left and right hand bend head machine in both 32 mm and 52 mm capacity versions for more complex shapes and variable radius bending. Click on any of the tube bending machines below for full specifications.

MODEL: ATM 19

The SOCO ATM19 Production Cell is designed specifically for the production of small and medium diameter tubing and wire. The production cell is used extensively within industries such as Automotive, Air-Conditioning, Heating and Refrigeration. The machine has a capacity from 4mm to 19mm and is capable of uncoiling, straightening, bending end forming and cutting.

FEATURES & FUNCTIONS

- Combines different working processes to create a complete production cell
- Can work on tube from 4mm up to 19mm
- Patented bending system offering the highest accuracy
- Collision simulator
- Touch screen control interface
- Data storage and editing for multiple files
- Programmable early mandrel extraction system

MACHINERY FOR TUBE

MODEL: ATM 19

SPECIFICATION

Specification \ Model	SB-39 Auto
Steel Tube	O.D.4mm ~ O.D.14mm x 1.0t
Aluminum / Copper Tube	O.D.4mm ~ O.D.19mm x 1.0t
Wire	O.D.4mm ~ O.D.8mm
Left + Right Bending	Yes
Draw + Compression Bending	Yes
Max. Bending Speed	720 / sec
Max. Bending Radius	80mm
End Forming Stations	1~3
Cutting System	Saw or Rotary
Dimensions: ATM- 19 (mm)	3470 x 1950 x 2020 (L x W x H)
Dimensions: TM-3-20NC+Saw (mm)	2340 x 1430 x 1550 (L x W x H)
Dimensions: Feeding Rotator (mm)	2610 x 1970 x 1540 (L x W x H)
Production Cell Gross Weight (Kg)	5000

*Can be extended by request
