

TUBE BENDING MACHINERY

Langbow offer a wide range of new tube bending machines from Soco ranging from NC machines to multi axis CNC tube bending machines and automatic load and unload production cells. Langbow also provide Soco all electric machines and the versatile left and right hand bend head machine in both 32 mm and 52 mm capacity versions for more complex shapes and variable radius bending. Click on any of the tube bending machines below for full specifications.

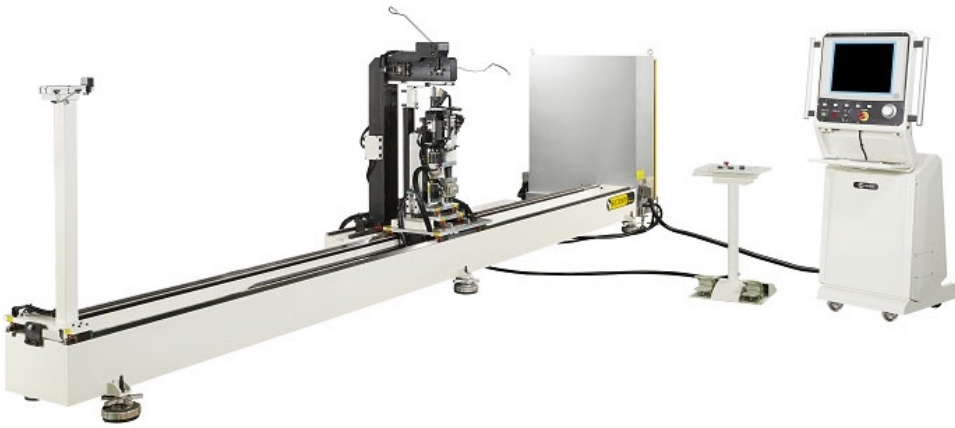

MODEL: SB-OIL MASTER

The SOCO SB-Oil Tube master is a dedicated CNC Brake Line bender, designed for small tubing, especially Bundy Tubes and hydraulic lines. With multiple electric axis and a unique designed to allow bending the most complex shapes and parts, it offers the most advanced solution and performance in its range.

FEATURES & FUNCTIONS

- 3 Electric Axis controlling bending, tube rotation and carriage movement
- Automatic bending head reversal (left-to-right) when reaching central clamping area, providing a fully automatic cycle for the entire bending process
- Optional Automatic Loading and Unloading Interface
- Centralized clamping and rotation and system for true simultaneous moving of all axis
- Lowest cycle times because of minimal number of moving parts
- Suitable for brake line tubing up to 4000mm (Optional 5000 mm)
- Unparalleled Speed: 35 seconds for 14 bends, 100 seconds for 40 bends

MODEL: SB-OIL MASTER

SPECIFICATION

Specification \ Model	SB-Oil Tube Master
Max. Mild Steel Capacity (mm)	Ø8 x 0.7t x CLR3.0D
Max. Tube Length (mm) *	4000
Bending Radius (mm)	15 ~ 35(CLR)
Max. Bending Angle	160°
Numbers of Bend Per Tube *	49
Gross Weight (Kg)	3500
Machine Dimension (mm) (L x W x H)	4900 x 1150 x 1450

* Can be extended by request
